WINDOW + DOOR WORKFLOW

REVIEW. PROCURE. FULFILL.

One connected workflow for checking the opening data, getting it priced, and carrying the selected products through delivery.

TRY DEMO →

SCROLL TO FOLLOW THE PROJECT

THIS IS WHERE
THE WORKFLOW STARTS.

02 / HOW WINDOWBID WORKS

THREE STAGES. ONE CONTINUOUS RECORD.

Once the AI-extracted opening data is reviewed, the same information flows from takeoff to quoting, ordering and fulfillment.

01 / REVIEW

THE PROJECT STARTS AS A DRAWING.

Every window package begins as construction drawings. Before anyone can price it, someone has to read them.

☐ VERIFY ☐ EDIT ☐ READY FOR RFQ

ASSEMBLING / 07 OF 14 WALL FRAGMENTS

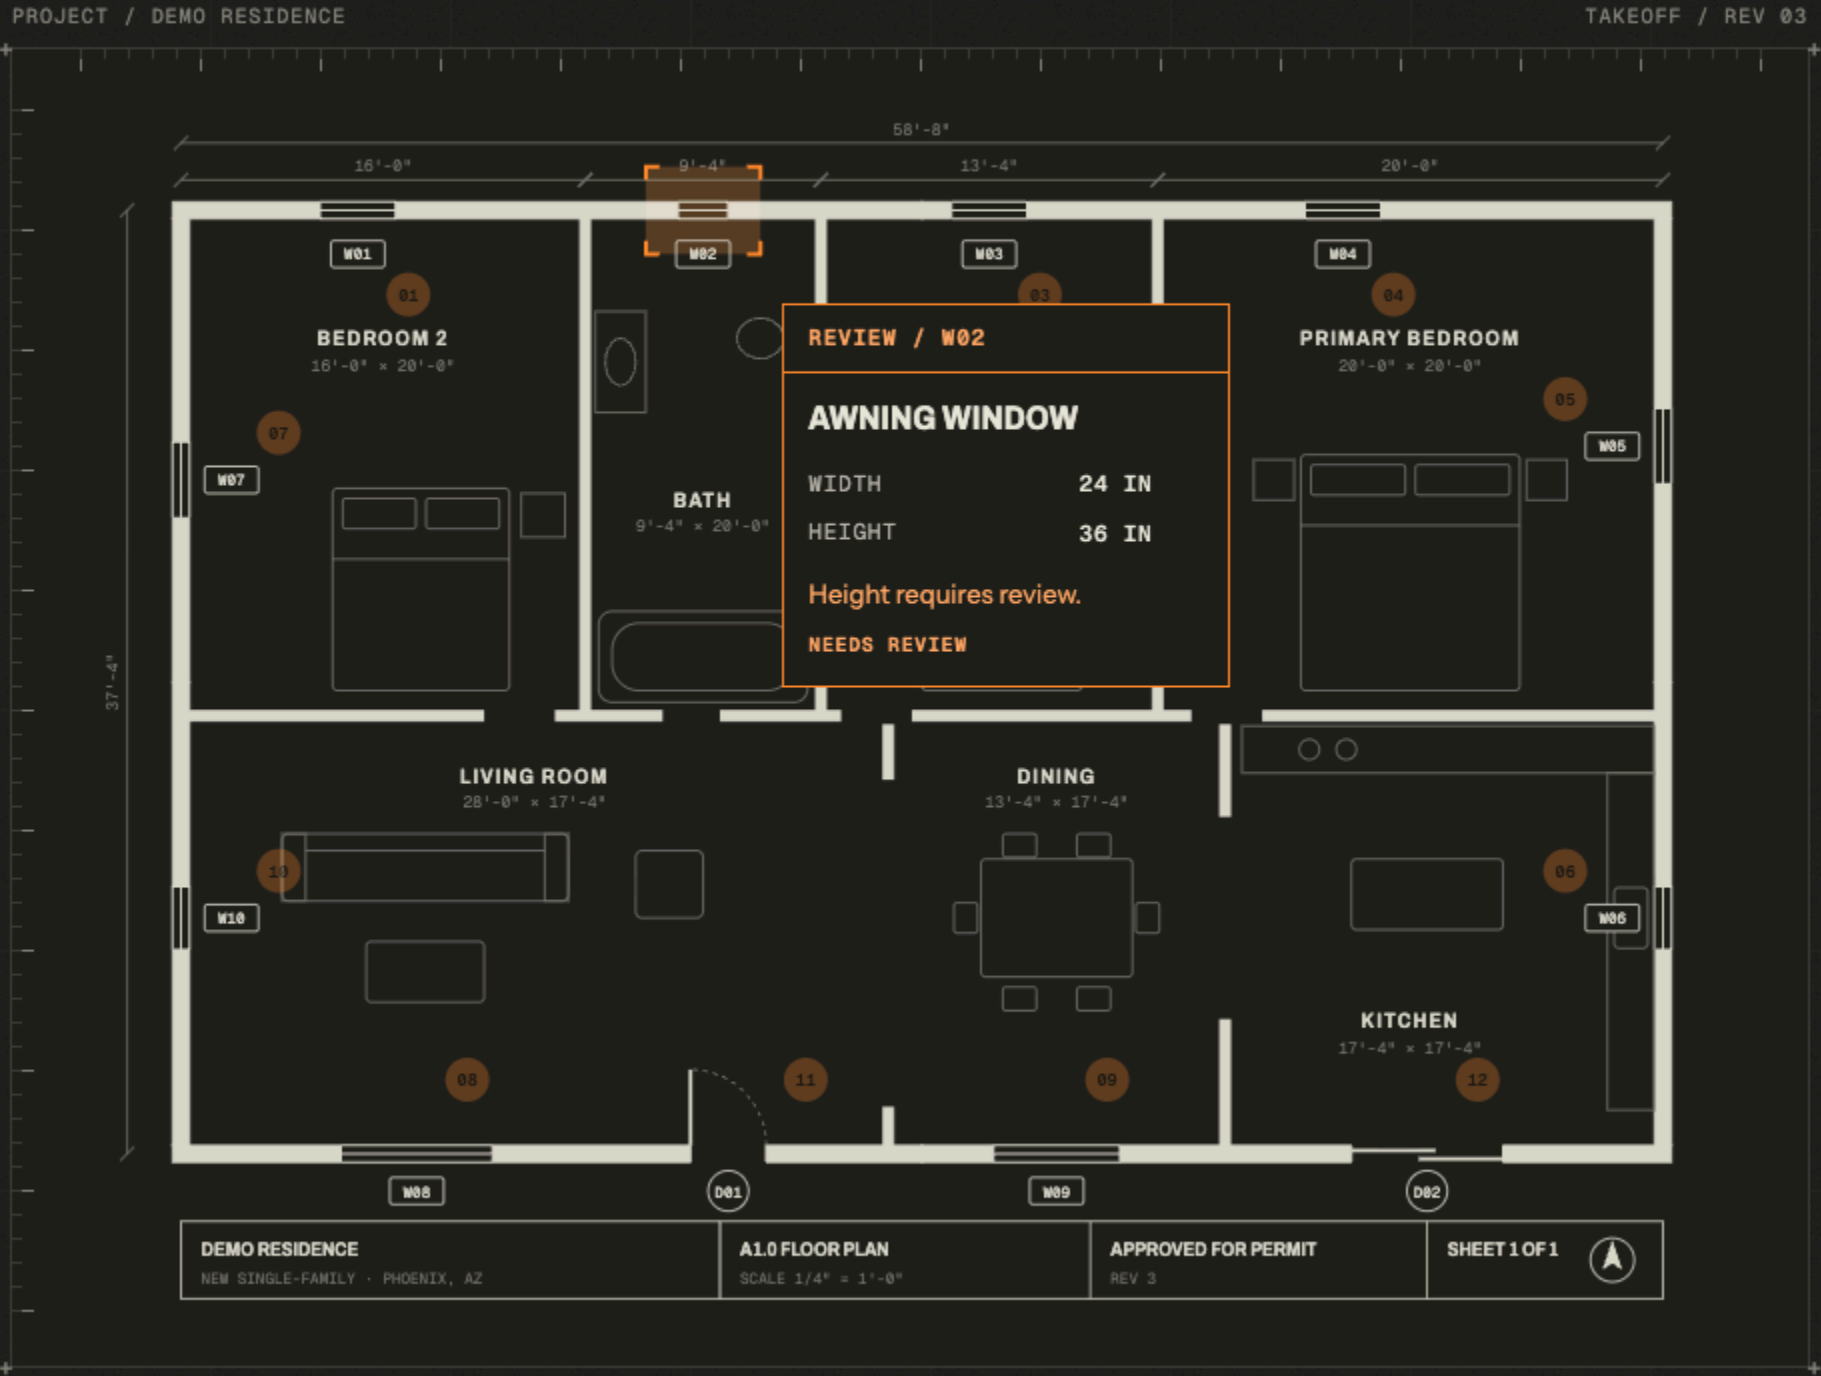

01 / REVIEW

CONFIRM THE OPENING DATA.

Each opening is checked against the drawing. Missing values are filled in, then the opening is verified.

■ VERIFY ■ EDIT □ READY FOR RFQ

W02 / EDITED TO 24 × 36

01 / REVIEW

THE DRAWING BECOMES DATA.

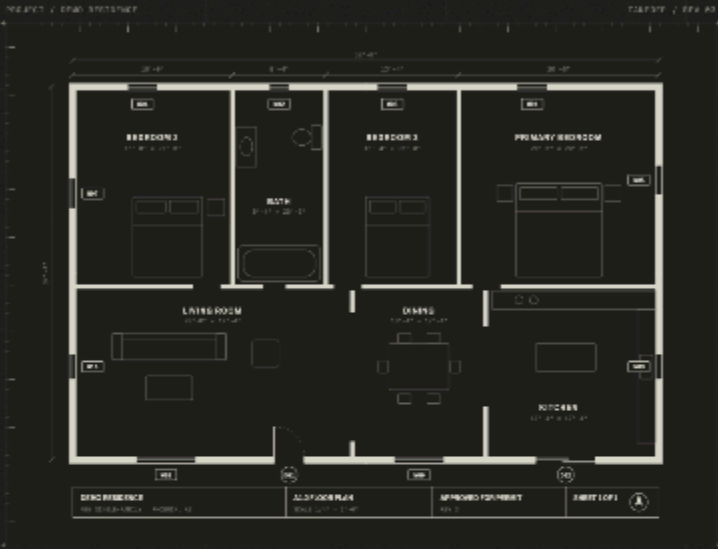

Every verified opening becomes a row in the takeoff,
still linked to its place on the plan.

■ VERIFY

■ EDIT

■ READY FOR RFQ

CREATE A TAKEOFF

Upload an architectural plan or a full drawing set. WindowBid finds the windows, reads their marks, sizes and types, and lays them out for you to review.

Drop a plan here or browse files

PDF drawing set (any number of pages), JPG, PNG or WebP

Every page is checked. Window schedules are read first and shown right away; the floor plan is found and mapped while you review.

OR

Use the sample plan

A1.0 Floor plan, Demo Residence. Seven rooms, twelve exterior openings. Runs instantly.

WindowBid looks for **windows, window marks, sizes, types** and **room locations**. Doors are left out.
